

Forum	Feedback Source	Feedback	Feedback Incorporated?	Notes/Explanation/Justification
Data & Reference Layers to Add				
Feedback Poll	OCM	Blue Topo or HydroHealth Model	Yes	Added blue topo relief as a reference layer
Feedback Poll	OER	UCH (restricted)	In progress	Adding a restricted UCH side to the site
Feedback Poll	NWFSC	CMECS Coverage	Yes	Information is found on the IOCM site itself
Feedback Poll	USDA	Political boundaries of states and counties	Yes	A county boundary reference layer is added to the site. The default basemap shows state boundaries as well
Feedback Poll	NPS	elevation data from structure for motion	Not incorporating	Not enough context to add to the site and original POC is no longer in federal service
Feedback Poll	FWS	data from wetland mapper	In progress	Added active projects layer as a reference layer
Feedback Poll	BOEM	backscatter and sub-bottom	Yes	BOEM layers added
Feedback Poll	AK GIO	land ownership	Yes	Added Land Managment reference layer
Feedback Poll	NSGIC	Non-Federal AOIs	Yes	There are no restrictions on adding non-federal AOIs
Feedback Poll	TN	HUC 10s	Yes	Added as a reference layer
Coastal Geo Tools SIM	All areas	bathymetry analysis	Not incorporating	This functionality exists here .
Coastal Geo Tools SIM	Nearshore	Sat bathy layer	Not incorporating	No existing layer to add at this time
Coastal Geo Tools SIM	Nearshore	Existing DEMs	More information needed	Conversation needed with Jeff Danielson to make mosaic of existing dems
Coastal Geo Tools SIM	All areas	National Marine Sanctuaries	Yes	Added MPA boundaries as a reference layer
Internal	Internal	ECS Areas	In progress	Marine Facilities Planning tool just added it, nothing on living atlas, no leads
Internal	Internal	Unofficial World maritime boundaries	In progress	Marine Facilities Planning tool just added it, possible source from living atlas
Functionalities to Add				
Coastal Geo Tools SIM	Inland Topography	Measurement tool	Yes	New map layout contains a measurement tool. Can find distance of a line or area of a polygon in various units
Coastal Geo Tools SIM	Inland Topography	Export to PDF	Yes	Discover project overlaps tool allows users to download a pdf of the analysis results
Coastal Geo Tools SIM	All areas	Bookmark view	Yes	See share tool
Coastal Geo Tools SIM	Nearshore	Slider for temporal data	Not incorporating	Functionality is not compatible with this site.
Coastal Geo Tools SIM	All areas	Filter for partner organizations	Yes	Dedicated filters on the left panel and right panels of the map. Functionality is carried over to new layout
Coastal Geo Tools SIM	All areas	Share tool	Yes	Can share custom map extent and filters and discover project overlaps results via short url via share tool
Coastal Geo Tools SIM	All areas	Find nearby projects	Yes	Discover projects overlaps tool allows user to draw or select an AOI and then set the buffer distance to find nearby projects
Feedback Poll	RSD	download shape files	Yes	Functionality added to discover project overlaps tool and pop-up data actions
Feedback Poll	AK GIO	API integration	Yes	Plans and priorities layer is now an ArcGIS Online hosted feature layer with a dedicated REST server
Feedback Poll	BLM	Query Function	Yes	Filter function behaves similarly to query function
Data Attribution				
Coastal Geo Tools SIM	Offshore	types of sensors used w/specs	More information needed	Add a list for data types
Coastal Geo Tools SIM	Inland Topography	project time horizons	In progress	Need to develop a comprehensive mapping schedule before pursuing
Coastal Geo Tools SIM	All areas	Acquisition Cost	More information needed	Determining how relevant this information is to early planning stages and collaboration
Coastal Geo Tools SIM	All areas	Exact AOI?	Not incorporating	Not necessary - can reach out to POC if there is confusion regarding AOI
Coastal Geo Tools SIM	All areas	More services layers added	In progress	Acquiring different service layers
Feedback Poll		3DEP age	Yes	Can find this information in the last updated field
Feedback Poll		Greater explanation of project status field	In progress	Can find this information in the user guide but will make it more readily accessible, SEE STORYMAP
Suggestion	All areas	Change symbology to represent organizations	In progress	Currently tweaking
Site Usage and Education				
Coastal Geo Tools SIM	All areas	Automated alerts for funding changes, overlapping, new datasets, or search interest	In progress	We are developing a subscriber page and list
Coastal Geo Tools SIM	All areas	Overview of how tool works (splash page)	In progress	Will be available in the new layout
Coastal Geo Tools SIM	All areas	Integrate with NOAA data sharing policy	In progress	Pending consultation with Courtney Thompson
Coastal Geo Tools SIM	All areas	101 webinars	In progress	Site includes a user guide and will have demo videos for each tool . Developing an webinar with NOAA library
Coastal Geo Tools SIM	All areas	data pipeline with State GIOs and NSGIC	More information needed	Input needed
Coastal Geo Tools SIM	All areas	Clean Use UI - less clutter	Yes	New layout has collapsable sidebar and results table so the majority of the screen real estate can be the map
Coastal Geo Tools SIM	All areas	Schedule of plan updates	In progress	Developing an update schedule
